Joynell
Organics

THE KING OF VITAMIN C

Premium Origin

Sourced from pristine high-altitude regions, our premium Cili Fruit contains up to 50 times more Vitamin C than oranges.

Advanced FD Technology

Produced using low-temperature vacuum freeze-drying (FD) technology to perfectly lock in heat-sensitive nutrients and active immunity boosters.

Clean Label & High Solubility

100% pure fruit powder with strict clean-label compliance, offering a highly water-soluble texture with customizable particle sizes (mesh).

Versatile Functional Ingredient

An ideal premium formulation choice for global dietary supplements, functional beverages, and health food applications.

*Just Well
Organics*

Vibrantly Green & Pure Origin

Premium Shade-Grown

Crafted from premium shade-grown tea leaves to maximize amino acids and a naturally vibrant green hue.

15°C Micro-Milling

Undergoes traditional steaming and ultra-fine micro-milling at a constant 15°C to preserve its fresh, delicate aroma.

Bake-Stable Color & Umami

Features a brilliant, bake-stable green hue and a rich umami flavor profile that perfectly withstands high temperatures.

Precision Grading Matrix

Grade	Sensory Profile	Applications
Ceremonial Grade	Vibrant jade, ultra-smooth, intense umami, zero bitterness.	Pure tea drinking, specialty matcha lattes, high-end tea houses.
Culinary Premium	Deep green, rich roasted tea aroma, high color stability under heat.	Premium baking (croissants, mille-crepe), gelato, premium beverage bases.
Culinary Standard	Balanced yellowish-green, robust tea flavor, highly cost-efficient.	Industrial food manufacturing, ready-to-drink milk teas, retail snacks.

Joywell
Organics

Premium Origin & Intense Flavor

Highland Cultivation

Sourced from premium highland ginger for a sharper, more authentic aromatic profile.

Active Gingerols

Low-temperature dried to maximize retention of natural antioxidants.

Fine Milling

100% pure with zero additives, ensuring uniform texture and excellent dispersion.

Bioactive Curcumin & Formula Enhancement

High Active Curcumin

High Curcumin: Sourced from core regions, providing stable active curcumin for functional foods and supplements.

Steam Sterilized

Steam Sterilized: International physical steaming preserves vibrant color while ensuring strict global import/export microbial compliance.

Micro-Milled, Optimal Dispersion

Optimal Dispersion: Micro-milled to ultra-fine powder for uniform dispersion in beverages, dairy, and sauces with zero clumping.
